Onderhoudsadvies

Een kleine moeite, groot effect

Kranen blijven langer kalkvrij als ze na gebruik droog gemaakt worden met een zachte (hand)doek. Maak er na het douchen een gewoonte van. Het is dan een kleine moeite met een groot effect en het scheelt achteraf een hoop poetsen.

Voorkomen is beter dan genezen

Net als bij een auto, kunnen scherpe voorwerpen krassen veroorzaken op een kraan. De kranen zijn afgewerkt met een zeer hoogwaardige lak maar deze blijft, net als autolak, altijd wat gevoelig voor krasjes. Voorkom krasjes door het gebruik van schuursponsjes, schuurmiddelen en microvezeldoekjes achterwege te laten. Let ook op met sieraden.

Verwijder kalk uit de nozzles van de douchekop

Wanneer de stralen van de douchekop niet meer netjes naar beneden vallen, maar alle kanten op gaan behalve de goede. Dan betekent dit dat er kalk in de nozzles zit. Niets ernstigs, deze kalkaanslag kan eenvoudig verwijderd worden door met de handen over de nozzles te wrijven.

Zeker af te raden:

- Het gebruik van een reinigingsmiddel dat zoutzuur, azijnzuur of een ander schadelijk, agressief zuur of chloor bevat.
- Het gebruik van fosforzuurhoudende (industriële) reinigingsmiddelen.
- Het mengen van verschillende schoonmaakmiddelen.
- Het gebruik van agressieve reinigingsmiddelen, schuurmiddelen, schuursponsjes en microvezeldoek.
- Het gebruik van middelen met fluoride of waterstofperoxide.

Let op:

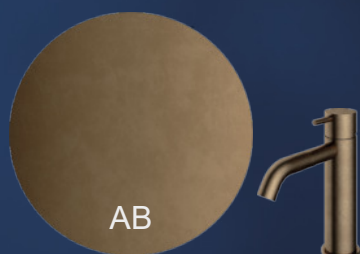

Ook huidverzorgingsproducten zoals shampoo, kleurspoelingen, douchegel en vloeibare zeep kunnen schade veroorzaken. Ook hier moet men na gebruik goed naspoelen met water. Na het gebruik de kranen en douches drogen met een zachte doek houdt de producten langer vrij van kalkaanslag.

Schades die door onzorgvuldig gebruik of reiniging zijn ontstaan vallen niet onder garantie.

Om schade en klachten te voorkomen, zowel bij gebruik als bij reiniging van kranen en douches, kan je hier het schoonmaak- en onderhoudsadvies downloaden.

A photograph of a person with dark hair, wearing a white crew-neck sweater, standing in profile. They are positioned next to a large, leafy green plant in a grey pot. The background features a textured wall and white curtains. The lighting is soft and directional, creating a calm atmosphere. In the foreground, a wooden cutting board with a sliced lime is visible on a dark surface.
